BELEK

As The Kaya Palazzo Family, we take responsibility of our guests and employees and increase our measures to create a safe and peaceful environment.

The test of our original cuisine will continue to be produced in accordance with food safety, also we are planning special presentations in our service.

We disinfect the entire restaurant area with our continuously working ozone generators. We carry out fruit and vegetable disinfection in the kitchen with our ozone device.

We prepare our directives in line with the guidelines of the World Health Organization and National Health Authorities and provide regular training to our staff

We further detail our disinfection processes in rooms and general areas of use and provide maximum hygiene with continuous ULV and UV disinfection..

We believe that we will definitely meet you on beautiful days. Until that day, we will continue to work on a healthy and peaceful holiday. Please stay at home during this process.

We continue to be at your service with our 24-hour healthcare staff and our contracted professional hospital.

We take measures to protect your social distance.

We believe in the healing effect of the Antalya sun on health and the energy it creates.

We believe in the peaceful effect of the blue of the Antalya sea and the well-being of the sky.

We believe in the good power of Turkish hospitality and the positive energy in the smiling eyes of our employees.
